OPTIONS

ORIENTAL BEAUTY

It combines the formal aesthetic feeling of modeling with the Oriental aesthetic feeling. Under the white rendering, it is as warm as jade. Adding layers and texture, adding a few natural and modern elements to the space, symbolizing a yearning and pursuit for the future.

PERUGIA

Using static lines to deduce smart movement, fashion and futurism are in the same line, and using a deeper extension to deconstruct the charm and meaning of modern style.

CLASSICAL

The pure white pieces and the permeability of wood materials make the space more spacious, full of sense of hierarchy, full of rationality and wisdom. Further closer to the relationship between man and nature, fresh.
The vanity unit is an essential piece of furniture for everyday and frequently used items in the bathroom.

BURANO

Unexpectedly, the natural flavor is introduced into the bathroom. In the modern space aesthetic feeling, it seems to add a layer of simplicity and make a new interpretation of the simple and fashionable design creed.

MODERN

The minimalist look of these vanities provide the illusion of more space while providing ample storage. In texture and color, high-level modern art appeal is displayed everywhere. It's like a quiet space, a pleasant place.
