# Created with sustainability in mind

At Caroma we pride ourselves on utilising renewable and recyclable materials to help support a sustainable future.

Our Elvire collection showcases a beautiful selection of locally grown and sustainably sourced Tasmanian timbers, passionately crafted in celebration of Australia's natural environment.

Tasmanian Oak and Tasmanian Blackwood have been selected for their natural beauty and versatility throughout the collection. The Elvire bathroom collection is like no other.

# An award-winning collection

The **Caroma Elvire Collection** has been awarded the prestigious **Good Design Award Gold** accolade in the **Product Design Hardware and Building** category in recognition for outstanding design and innovation.

The annual Good Design Awards is Australia's oldest and most prestigious international Awards for design and innovation with a proud history dating back to 1958. The Awards celebrate the best new products and services on the Australian market, excellence in architectural design, engineering, fashion, digital and communication design, design strategy, social impact design and young designers.

More than 55 Good Design Awards Jurors evaluated the entry according to a strict set of design criteria which covers 'good design', 'design innovation' and 'design impact'. Projects recognised with a Good Design Award must demonstrate excellence in good design and convince the Jury they are worthy of recognition at this level.
